

Caraway

Caraway offered in Premium and Standard commercial categories.

Premium: selected for a larger seed size and a more uniform appearance and colour.
Standard: seeds may vary in size and colour. These are our commercial categories based on seed appearance, not certified quality grades. Suitability and quality parameters are confirmed against the specification agreed for each order. Product parameters are confirmed in the quotation and applicable supplier documentation. Processing by-products are not part of the Standard food offer and require a separate inquiry and documentation review. This is general commercial information only, not a technical specification, certificate, availability statement or product guarantee.

Start with your requirement

- Product and grade, where applicable
- Intended use and required specification
- Quantity, packaging needs and delivery destination
- Preferred delivery timing

We handle the purchase of the goods and arrange transport on agreed terms. Order volumes, including trial requirements, are discussed individually.

Document CT-01 · Version 1.2 · 19 September 2026

General commercial information. Order-specific documents and agreed terms take precedence.
